(அ) தமிழ்நாடு 1972-ம் ஆண்டு, விவசாய வருமான வரி (திருத்த) சட்ட முன் வடிவு (சட்ட பேரவை சட்டமுன் வடிவு எண் 37/1972)—தொடர்ச்சி.

Mr. Speaker : Dr. Hande may now continue his unfinished speech of yesterday.

Dr. H. V. Hande : Sir, unless this Bill is referred to a select Committee or referred for eliciting public opinion, it will produce hardship among thousands of farmers, who are now engaged in the excellent task of producing foodstuffs for us. I would like to stress one more point. In the history of the house, for the past four or five years, Member after Member belonging to all parties, be they in Opposition or Ruling Party, almost every Member of this house, has categorically mentioned that this Bill has got injurious clauses. Member after Member has mentioned that. That is why I make a strong plea that it should be referred to a Select Committee.

If only the particulars, that I have mentioned in my speech last time when this Bill was discussed on 30th July 1971, had been acted upon, things would have been different. I have got the proceedings of the Assembly of that day. I had mentioned that I will not be surprised, if the Minister comes again with more facts in the form of another Bill. Some people were wondering and thinking that I was exaggerating. But it has proved a fact. The Minister has come again with another Bill. If only my views and suggestions had been taken seriously so many problems could have been solved. This Bill is for meeting one of the points out of the 11 points raised during the Farmers'agitation. Even as at present worded there are many loopholes. It has to be referred to a Select Committee so that more thought could be bestowed on it and loopholes plugged. How agricultural operation is different from production in a factory has to be considered. The production in a factory could be easily calculated by production of figures. But how the poor agriculturist has to depend on the vagaries of nature should be taken into consideration while computing his income. Is it easy to lay down what is agricultural income, when so much depends on nature? In the case of an industrialist, we can assess what property he has got and
